

**"For over 15 years, Medi-Gen has revolutionized medicine with the very latest innovative ideas!"**

Probably the most important conference in the field of **frequency regulation and medicine** opens its doors again this year **in Munich** on **20 and 21 July** and is ready for **you**...

Dear Reader,

Before I show you what news we have to offer again this year, I want to ask you an important question:

**Do you consciously take your own health into your own hands? What are you doing for your patients and what you do for yourself?**

My colleagues, participants and I often get together to ask ourselves these questions time and time again. And if you're wondering:

***"With what kind of **revolutionary methods** can I expand my range of treatments? How can I get my patients, my family and help myself, to get better and better?"***

Then you are in the right place!

**NOW this opportunity is here for you again!  
Gain invaluable knowledge, which will give you a  
huge advantage over your competition!**

**From 20-21 July 2013, you will have the rare opportunity to meet and interact with the most important pioneers in this field.** Come to this event and bring new life into your practice!

**Please ask yourself the following questions:**

- Do you want to take advantage of this rare opportunity to finally secure the best piece of the pie and take your practice to the next level?
- Are you looking for new treatment methods to INSTANTLY bring masses of patients into your practice?
- Why should a patient choose to come to your practice?
- How can you make your patients become active ambassadors of your services?
- Are you prepared to help revolutionize the world of medicine by being on the front line with these new methods?
- Are you prepared to treat 50 new patients a month, all of which are so satisfied that they would like to come again?

These questions are to be taken completely seriously. There are doctors who are not interested in such things, and can continue to practice, as before.

**Now, just amongst us: Do you want a successful practice, where you can help people and make money?**

Let's be honest. You are most probably a person who...

... **wants to help people.**

... is open to new ideas.

... **wants to earn a lot of money.**

Our methods may be a long way from conventional medicine, yet we still need to earn good money. More patients mean more turnover, which is not a bad thing. Perhaps you say to yourself that money is not so important and it is much more important to be able to really help people who need it. But do these questions really need to be in contrast with each other?

**Please understand this essential fact:** The more patients you can serve, the more people who will help you. The more people you help, the more money you earn.

And that's why we are organizing this conference.

**Take the opportunity to get in contact with our top experts.  
Learn new ways of increasing your turnover!**

Here is a detailed overview of our speakers, experts and topics:

**Peter Franke:** Electronics-engineer for medical devices, gives training and seminars, medical product advisor, CEO of Medi-Gen Technology Ltd.

- Why is the human body affected by electromagnetic pulses?
- **How can you use electricity to relieve pain and treat your patients successfully?**
- What dangers can be caused by electromagnetic pollution, and how can you prevent this?
- **Explore how with the help of different polarities, you can dramatically improve wound healing.**

**Dr Stephan Rastocny:** Licensed to practice medicine in Germany since 1987. Approved exam as specialist OB/GYN at gynaecological hospital, Giessen. Passed the Canadian and Chilean medical exams. Medical activities in various clinics, including as a senior attending physician, as well as in medical practices in Germany and Chile.

- The importance of parasites as disease triggers, and what you can do about it.
- **Learn how to identify and eliminate these parasites using biophysical methods.**
- Discover a new and innovative treatment approach that is presented on the basis of individual clinical case studies.
- **Using targeted frequency therapy, many diseases can be diagnosed within minutes.**
- Discover how complicated illnesses can be handled much more efficiently.

**Dr Heinz Reinwald:** Entrepreneur and non-medical practitioner with practices in West Munich and Bayreuth, partner network, developing his own metabolic program on the basis of MAP (Dr Reinwald metabolic regulation).

- Are modern and aggressive pharmaceuticals the best solution for seizure disorder? How to treat your patients much more gently!
- **Learn how the ketogenic diet returns to modern medicine and what this has to do with cancer.**
- What do the three magic letters "MAP" mean and where do they originate?
- **Learn how to use the Master Amino Acid Pattern (MAP) to find completely new therapeutic methods for cases of seizures, hepatic encephalopathy, or even with carcinogenic processes.**
- The Revolution: Years of dogma on the linearity of cell developments have been broken. Dr Reinwald shows what that means for you.
- **Most tumours are not considered to be harmful by the immune system. The latest findings are presented as to what is the best way of changing how we deal with tumours.**
- Dr Reinwald will also present new treatment options for cancer medicine.

**Knut Henning:** EAV consultant since 1988, Senubar activities for EAV as well as technical advisor and partner of IMGEAV (International Medical Society for Electro-acupuncture according to Voll).

- Discover a fast intolerance test that you can use in your practice immediately.
- **Using EAV (Electromagnetic acupuncture according to Voll), you can quickly determine your patient's allergy potential.**
- Can allergies be prevented and is a long-term success against chronic disease possible? Learn what it takes!
- **Let yourself be inspired by a live demonstration, where these new methods can be applied immediately.**

**Peter Schmalzl:** Training in microbiology, psychosomatic energetics, international experience in the Netherlands / France. Specialises in treatment of Borelli. Advisor for therapists and doctors in the field of alternative medicine and frequency therapy.

- Latest research results in frequency therapy
- **How to use the latest treatment programs to relieve phlegm and treat a range of diseases.**
- Learn what alarming signs in the body can indicate disease. We show you how to recognize and treat these problems.
- **Learn how to make a successful quick diagnosis. Learn everything step by step.**
- Learn about the latest approaches in addiction treatment. We present a new method with frequency therapy.

**Florian Schilling:** Non-medical practitioner in private practice since 2006. Attended many professional training courses in the areas of TCM, detoxification therapy, tumour therapy, redox and acid-base regulation. Lecturer at the Paracelsus School of Munich and director of the Institute for Nonlinear System Analysis INLSA.

- How can individual risk profiles for cancer patients be obtained better, faster and more efficiently?
- **Will present a detailed overview of the current possibilities of biological tumour therapy.**
- Using micro-current therapy, it is possible to treat mitochondrial disorders that are often present in tumour patients. This is especially helpful in tumour reduction, but also used in many other applications.

# Do not miss this opportunity!
